DIVING: It's the reason . . . Both resorts are located on the sea front facing fantastic house reefs, where you can dive any time, day or night. Inside the dive centers, each person has a hanging post and crate. Plus, . . . there's lots of room outside to prepare your equipment, plan your dives or just sit in the sun and soak up some rays. The tide is usually high enough for the boats to pull up to the dive center, so it's just *one step and you're aboard*. Water temperatures in Jan are 80F - 82F .

There are 3 boats; the larger two are equipped with a dry area and an enclosed toilet.

Refreshments are provided between dives. There is a fresh water rinse tank onboard for cameras.

Experienced Captains and crew are always ready to assist in any manner necessary.

VALET SERVICE available upon request. This is very NICE with regard to large camera sets.

The Magic Resorts boast a vast array of local marine life including the elusive Thresher Shark often spotted hunting the huge school of Sardines that reside at Panagsama Wall.

The Sardine bait ball is a spectacle all its own, with literally TONS of fish making up the school.

Watching them shift and change shapes as the predators swoop in is mesmerizing.
